Historical Honolulu

OR A CENTURY OF

HAWAIIAN EVOLUTION.

This valuable record of the most important events in the History of Honolulu for the past hundred years was compiled and published at great expense in 1899.

Its historical and descriptive articles are by the very best recognized authorities on Island matters and are handed from absolutely impartial standpoints.

It is finely illustrated and contains portraits and biographical sketches of the principal business and professional men of the Islands.

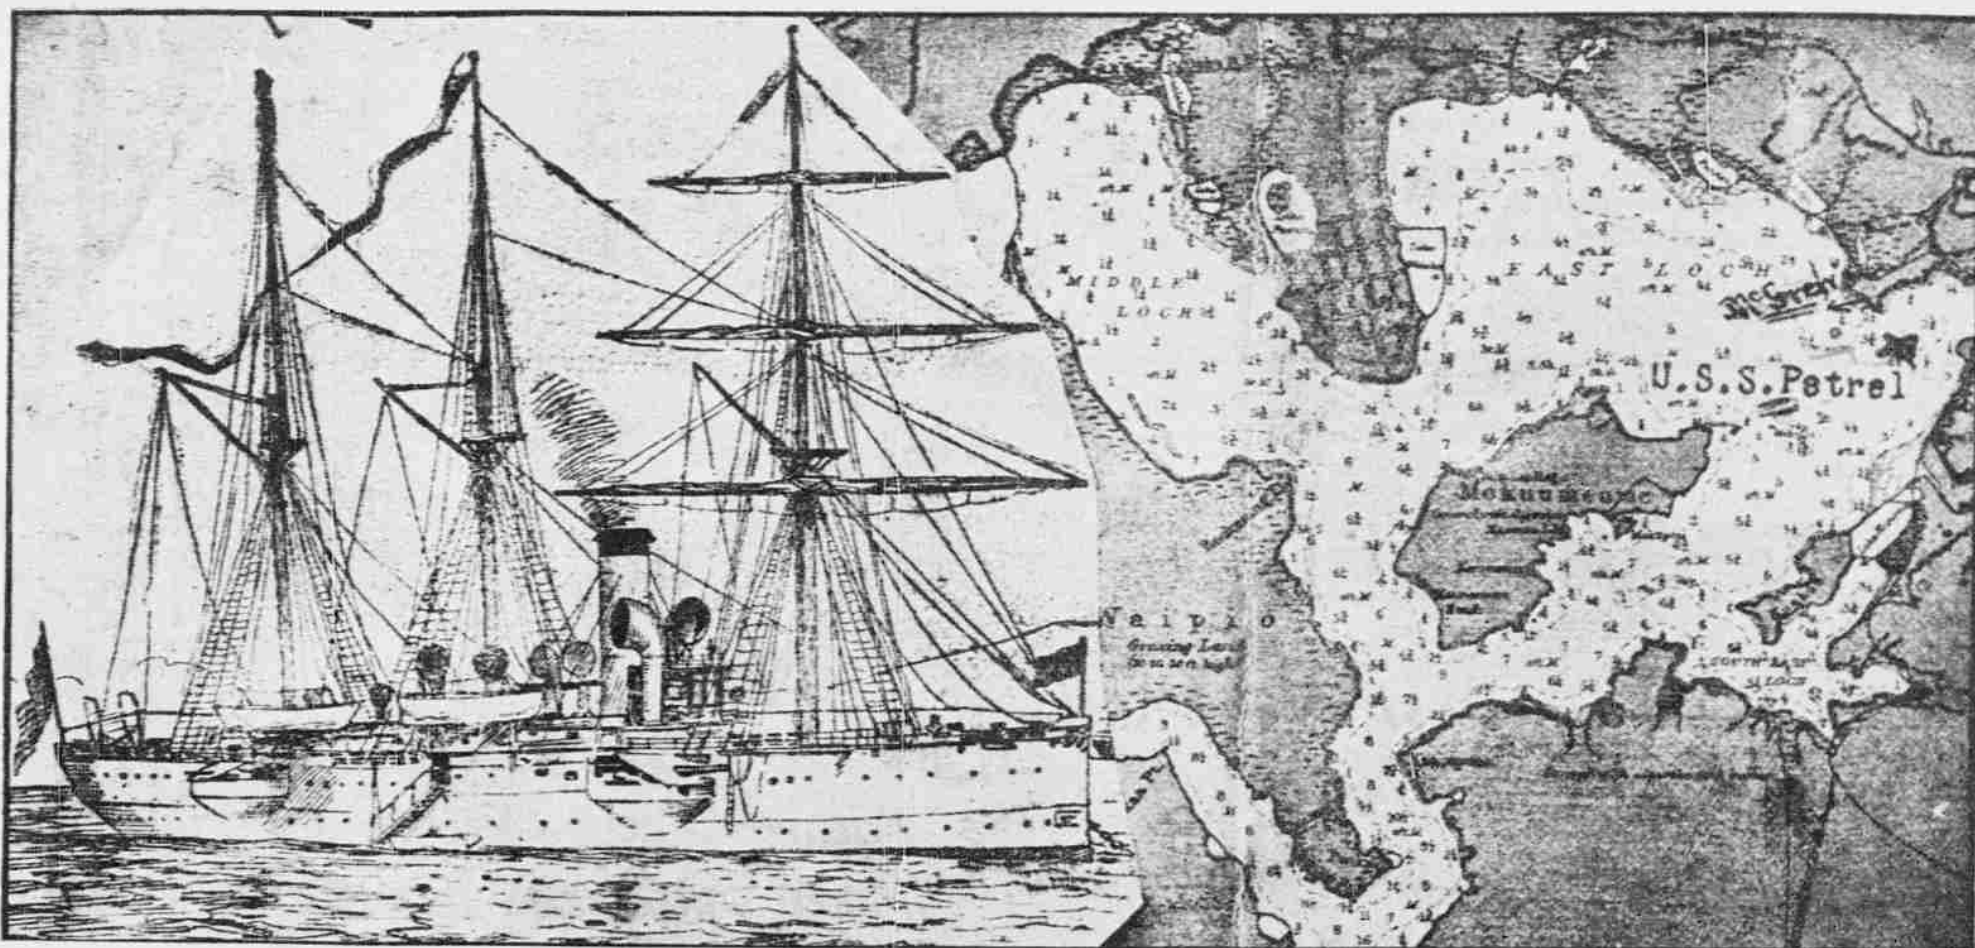

This is a publication that no student of Hawaiian History can afford to be without. A limited number of copies still for sale by The Hawaiian Gazette Co., Ltd.

THE PETREL AT PEARL HARBOR

THE U. S. GUNBOAT PETREL WAS YESTERDAY SAFELY ANCHORED IN PEARL HARBOR BETWEEN MCGREW'S AND THE AIEA R. R. STATION. X MARKS THE GUNBOAT'S LOCATION. THIS IS THE FIRST TIME A REGULAR DEEP SEA WARSHIP HAS RIDDEN AT ANCHOR IN UNCLE SAM'S FUTURE GREAT NAVAL STATION.

At noon yesterday the trim little gunboat Petrel of Uncle Sam's navy rode at anchor on the waters of Pearl Harbor, the future great American naval base. The anchoring of the Petrel in Pearl Harbor marks a milestone in the development of the lochs, for it was the first time a vessel of so large a type had been there.

Although the Petrel is one of the smallest gunboats in the American navy, yet she carries an armament of pretty heavy guns and is able to make a good showing in the face of an enemy. True, the station ship Iroquois has frequently steamed about the lochs, but the Iroquois is only a naval tug, converted from a tow-boat which saw considerable service in San Francisco bay.

The Petrel, commanded by Commander Sherman, with Lieut.-Commander Niblack, Captain of the yard at the Honolulu Naval Station, aboard, left Honolulu yesterday forenoon. Under the pilotage of Captain Niblack the gunboat was safely taken up to the location approximately marked by an X on the accompanying map, or about half way between Dr. McGrew's place and the Aiea Railroad station.

The Petrel will remain at Pearl Harbor for some time, the intention being to give the men all manner of drill comprising boat drills, landing under arms and general maneuvers.

PETER HIGH CHALLENGES THE BOARD OF HEALTH

President Pinkham Took Word of Spotters
Against Him--Paiai Turns Sour--Estimates Are Held Confidential.

Peter High's lumber contract and Keliinoi's paiai contract were the principal subjects of open discussion in the Board of Health meeting yesterday afternoon. Both matters were finally left in the hands of the president, to be acted on as he finds the occasion in each case may require.

Estimates for the biennial appropriations for the Board were considered, but with a request to the reporters to refrain from publishing the proceedings in that regard.

With L. E. Pinkham, president, there were present Dr. Cooper, Fred. C. Smith, Mark P. Robinson and Abraham Fernandez, with C. Charlock, secretary, and Miss Mae Weir, stenographer, in attendance.

An opinion of Attorney General Andrews on the lumber contract was read, which held in effect that if lumber offered by the contractor was prepared by the labor of aliens it could not be accepted under the statute.

A letter of the secretary, by direction of the president, to Mr. High asked him if the lumber he was going to furnish would be manufactured by non-citizen labor.

Mr. High made no reply until he received a jogging and then he wrote saying if the Board informed him who was inquiring about the matter he would give an answer.

The secretary was directed to tell him his letter was not pertinent.

Mr. High then wrote to inform the Board that he was prepared to perform his contract, and that if any charges should be made regarding his manner of doing so he would be prepared to meet them.

"How is it known to the Board that his lumber is handled by aliens?" Mr. Smith asked when the correspondence had been read. "Through some parties who visited his establishment," the president replied.

"I don't see why he should not be allowed to carry out his contract until it is shown that the law is being violated," Mr. Smith remarked.

"When he furnishes the lumber we can see about it," Mr. Fernandez observed.

Mr. Smith asked how they were going to know.

Mr. Robinson stated that it had been said Mr. High's lumber was not of good quality.

Secretary Charlock for information said the conditions of tender called for best quality.

Mr. Smith said if the lumber offered was not of best quality they could refuse to accept it. He moved that the matter be left in the hands of the president for further action. The motion carried.

After some discussion a like disposition was made of a difficulty about Mr. Keliinoi's paiai contract. Superintendent McVeigh had refused to sign vouchers for some lots of paiai, because the stuff was not in good condition at delivery.

Discussion brought out the fact that the process of cooking the taro on Maui was started on Wednesday morning, and the material being sent to the Settlement by way of Honolulu reached there Tuesday morning. Wilder's Steamship Co. iced the paiai in transit

BLANKETS and COMFORTERS

To Be

CLOSED OUT THIS WEEK

to make it keep. Mr. Fernandez, answering a question, gave a week as the limit for keeping paiai from souring.

As the contractor did not seem to be at fault, the president had advised Mr. McVeigh to pay the bills.

Various reports were submitted to the Board which are given space elsewhere.
